Relevant Experience

Front-End Developer

Dyson, Malmsbury   04/18-04/19

As part of the Digital Leap Project helping the business transfer from an old CMS system on a country by country basis specifically for parts, guides and tools.

- Building pages in Sitecore for new machines in Asia, Middle East and Europe
- Front end testing of web pages to find errors in copy and/or components
- Building pages for the US, UK, Ireland and Canada site using Adobe Experience Manager
- Liaison with asset teams to make changes to video or pictures
- Editing images with bad spacing to correct image sizes
- Take translations from spreadsheets and input them onto backend system

Front-End Developer

Teachit, Bath   01/18-04/18

At Teachit I was put on the technical team to help with the workload on a temporary basis.

- Developed responsive pages, layouts and templates using Bootstrap, JS, CSS & HTML
- Built invoicing templates, pack templates and product templates using a custom CMS
- Designed and developed an automated email to go to subscribers 6 months after subscription
- Created and analysed metadata with Google Analytics for SEO best practice

Career Break: Self Improvement

Bath   11/15-03/18

I chose to take time off work to pursue my interest in Front end development and had the time to decide on a new career path that really fits my personal goals.

Career Break: Travelling

Europe, Asia and Australia   11/13-03/15

Project Coordinator

First Great Western, Bath   01/13-11/13

Administered a 10 month project to develop a system that allowed the organisation to streamline their IT management.

Project Coordinator
The Association of Learning Providers, Keynsham   04/11-12/12

I had to manage events in coordination with the contract set out by the learning and skills council. I organised and marketed training for all 16-18 education providers within the UK.

- Update content on 3 different websites using CMS interface and traditional website programming tools.
- Make amendments to project costing and schedule via Microsoft Project.

Personal Assistant
The Link Special School, Bath   01/11-04/11

As a PA for a leading head teacher within the South West I partnered with local authority heads to help implement systemic change creating a new form of school governance.

Personal Assistant
Expert Assessments, Abergavenny   06/09-12/10

Expert Assessments provided assessments for children with special educational needs. I established procedures for my role and the other employees whilst finding efficiencies for best practice.

- Created new flash enabled website

Administrative officer
Department for Work and Pensions, Newport   11/07-06/09

Bar supervisor
The Waterloo, Cwmbran   09/06-11/07

Education

DevAcademy Full-stack Bootcamp
Bristol, UK   *2019*

6 week intense bootcamp to further develop capabilities in Front-End Development, Agile, and Java.

GNVQ (Distinction) in Business
Lliswerry High School, Crosskeys   2005

11 GCSEs
Lliswerry High School, Newport   2004

Interests

Self Improvement, Data Science, Blockchain, IoT, Secure Linux systems, digital networking, digital marketing, cryptography, futurism, how technology affects economics, political science, travelling, self improvement
